## **Russische Schülerin und Schüler zu Besuch an der BS19**

Vom 14. bis zum 23. Mai 2018 besuchten russische Schüler und eine Schülerin unserer Partnerschule die Berufliche Schule Farmsen in Hamburg. Hier ihre Erfahrungsberichte:

My name is Kirill Efremov. I'm 17 years old. My native city is St. Petersburg, Russia. I study at Technical College of Management and Commerce. My specialty is Mechatronics and Mobile robotics.

This is my first visit to Hamburg. The most interesting thing in Germany for me is the dual system of education, then architecture and, of course people.

At Berufliche Schule Farmsen they are teachers, they always help us if we have any problems. This visit has become very important for me. I become more motivated and disciplined. Hope to come here again!

My name is Mariia Sharshina. I'm 19 years old. I study at St. Petersburg College of Management and Commerce in the second year. My specialty is Information Security Automation Systems. It's my first visit abroad and I'm happy that it is Hamburg.

Most of all I'm impressed by practical part in vocational education. We visited German companies and met students who are doing their on-job-learning practice. I'd like to have the same at home.

Moreover, I'm really surprised by student's motivation and their ability to study for themselves. I'm very grateful to our coordinator Reiner Beyer for exciting and informative trips around the city and English classes.

Thank you to Farmsen teachers and director of Berufliche Schule Farmsen BS19 for warm welcoming and understanding us. Welcome to St. Petersburg, Russia!!!
